## ROOF PATCH and LEAK SEALER

64714

### FOR USE BY:

- Roofing Contractors and Cleaners
- Carpenters • Maintenance Crews
- Municipalities • Schools • Plumbers

**A** super durable coating used to fill-in and patch around flashings, gutters, vent pipes, and roofing material seams. Stays flexible with variable weather conditions. Portable, convenient aerosol is easy to apply evenly while eliminating messy cleanup and waste.

### FOR USE ON:

- Drip Edges • Mobile Homes & Camper Roofs
- Flat Roofs • Overlapped Seams
- Chimney & Skylight Flashings
- Gutters & Downspouts • Vent Pipe Flashings
- Asphalt Shingle Roofs • Gravel Stops
- One Ply Rubberized Systems • Off Ridge Vents
- Below Grade Foundations • Metal Buildings

- Can Be Used On Wet Surfaces
- Recommended for Industrial, Municipal, Business and Residential

- Unaffected by Weather
- Seals Out the Elements
- Effective on Asphalt, Tile, Slate, Felt, Wood, Metal, and other Roofing Materials
